

# 2017 Media Information

**The No.1 recruitment website for UK and International Transport Professionals**

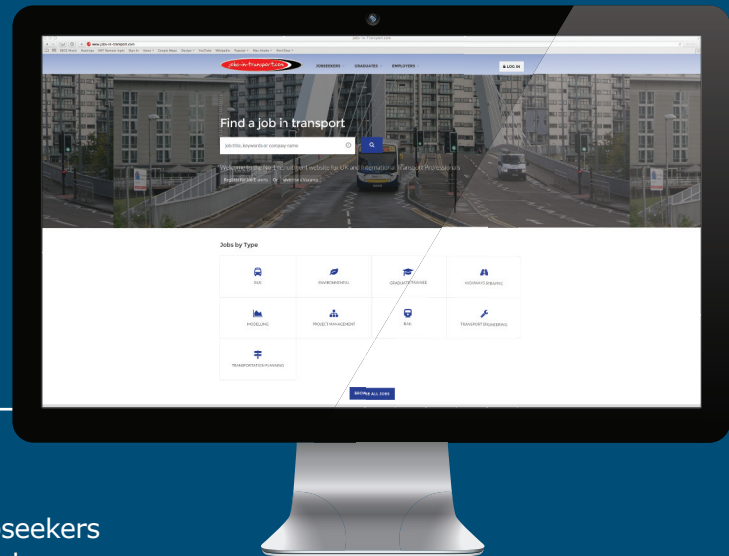

***A new job at your fingertips!***

Incorporating

**LOCAL  
TRANSPORT  
TODAY**

The leading transport recruitment website, established, proven and most trusted since 2007. The site comprehensively lists jobs in the fields of:

- Transportation Planning
- Transport Modelling
- Transport Engineering
- Passenger Transport
- Parking
- Rail
- Road Safety
- Highways & Traffic

#### Jobs-In-Transport has:

- Over 2000 unique visits per day
- Over 13,500 registered and active jobseekers
- Over 9,000 jobs advertised since launch
- Over 1,900 employers have used our service

**All jobs are advertised on the @TransportXtra twitter feed and the Local Transport Today LinkedIn group, reaching a wider audience of potential candidates.**

**We are so confident of our response rates** that we give you a personal login to monitor the live views, applications and CVs.

We guarantee to upload your vacancy **online within minutes** of booking. Your job is then emailed to all jobseekers relevant to your position... **twice**. First when it goes live, second, as a '*last chance to apply*'.

Just email [jit@landor.co.uk](mailto:jit@landor.co.uk) with your requirements.

A job description, your logo, and application details is all that's required.

## Targeted E-shot to Recruitment Database

# £1,500

We find the most successful route to reaching the ideal applicant and improving the response rate to job advertisements is via a Targeted E-Shot.

We have the ability to target our recruitment database by their interests of working within; locations, job sector, and level of seniority.

The targeted E-shot is offered as an add-on to any job listing on [www.jobs-in-transport.com](http://www.jobs-in-transport.com). Over the past 12 months jobs complimented with a targeted E-shot have seen an average of over 110% increased response rate from applicants.

We will use the advert text, organisation logo, salary, and images to create the E-shot.

We particularly recommend this option for organisations with more than one vacancy.

**From faster train journeys and vital water supplies to new hospitals and New Street Station - we deliver projects that impact on people's lives and the success of our city.**

We're proud to play a key role in our community and deliver amazing solutions in Birmingham and beyond. A world leading design, engineering and project management consultancy, we're looking for the best local talent.

*When I decided to look for a new job in transport, Jobs in Transport was my first port of call, and within seconds I saw a job that suited me in a location close to home. I am now in that job, working as a consultant within the development transport planning sector in the North West of England. I have always found Jobs in Transport to be a great resource for the transport professional, providing reliable and up to date job information.*

**Tom Reader**  
**Transport Planner**  
**Axis**

*I've worked in the transport planning field for 13 years, the last five of which have been in management level roles at first Trafford Council, and then Transport for Greater Manchester. Both these roles I have found stimulating, challenging and enjoyable, and I spotted both initially on Jobs in Transport. In my experience, it's the best place for jobs online within the transport planning sector.*

**Dominic Smith**  
**Cycling Infrastructure Manager**  
**Transport for Greater Manchester**

*I've been a member of Jobs in Transport for many years and like the way you can quickly scan through different disciplines and areas of the country – and rest of the world – to seek a suitable post. I've gained employment with consultants and Local Authorities over the years I've visited the site to progress my career.*

**Les Henry**  
**Principal Transport Development Planning Officer**  
**Surrey County Council**
